Toxins

Botox®

The most recognized neuromodulator worldwide. FDA-approved for cosmetic and medical uses. Great for precision and widely available. Trusted for over 20 years.

Dysport®

Similar to Botox but has a slightly faster onset. Known for diffusing more, making it a good option for treating broader areas like the forehead.

Xeomin®

A pure-form botulinum toxin with no accessory proteins. May be preferred for patients who've built resistance to other neuromodulators.

Letybo®

A newcomer to the U.S. market, though widely used overseas. Offers a smoother feel post-injection and consistent, natural-looking results. Now available at Aromas Med Spa.

- Nasal lift
- Marionette lines
- Upper lip and smoker's lines
- Gummy smile
- Jawline and jowls (Nefertiti lift)
- Neck bands
- Excessive sweating (hyperhidrosis) in hands and underarms
- Even non-surgical breast lifting

But that's not all—we also specialize in the artistic application of dermal fillers to do more than just fill lines. With our advanced techniques we offer:

- Non-surgical nose lift
- Jawline contouring and definition
- Volume restoration in the cheeks and lips

Our licensed healthcare providers are trained to perform injections in even the most delicate areas of the face and body, delivering safe, customized, and natural-looking results.

Botox, Dysport, Xeomin, and Letybo — Over 15 Years of Expertise in Aesthetic and Anti-Aging Medicine

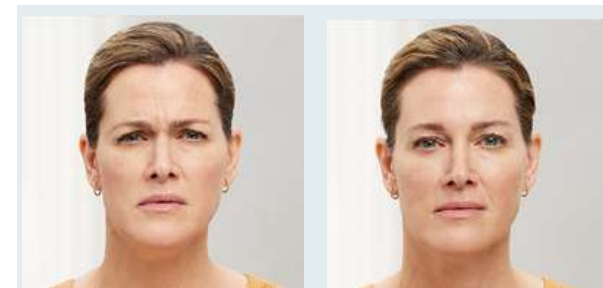

At Aromas Med Spa, our highly trained practitioners bring over 15 years of experience in aesthetic and anti-aging medicine, ensuring every treatment is performed with precision, care, and your comfort in mind. Our goal is to help you look and feel your best—naturally and without downtime.

Neuromodulators like Botox®, Dysport®, Xeomin®, and Letybo® have advanced far beyond basic wrinkle treatment. With the right technique and professional expertise, we can now treat:
